PROFILE

I am a Backend Developer with hands-on experience in building scalable web applications using Node.js, Express.js, and MERN stack, following the MVC architecture. I specialize in RESTful APIs, database design, authentication, and secure system integration.

WORK EXPERIENCE

Backend Developer

Pothik- Tourist Travel Agency

- Worked as a Backend Developer in a tourist travel agency web application project, responsible for designing and developing the complete server-side system.
- Built scalable and secure RESTful APIs using Node.js and Express.js following the MVC architecture.
- Designed and managed the database using MongoDB Atlas, including schema design, data validation, and query optimization.
- Implemented user authentication, role-based access control, and booking management system.
- Integrated image hosting and delivery using Cloudflare for better performance and security.
- Containerized the entire application using Docker to ensure consistent deployment and easy scalability.
- Collaborated with frontend developers using React to integrate APIs and ensure smooth data flow between client and server.

Smart Library- Library Management System

- Built an automated library system using PHP & MySQL.
- Implemented real-time dashboard where book issue/return updates automatically.
- Developed admin panel for user and book management.

EDUCATION

2022 - 2026

UNITED INTERNATIONAL UNIVERSITY

- Bachelor Of Science in Computer science and engineering.

2018 - 2020

ALHAJ MOCKBUL HOSSAIN UNIVERSITY COLLAGE

- Department of science
- gpa 4.35

SKILLS

- Node.js
- Express.js
- RESTful API design
- MVC Architecture
- Authorization (JWT, Sessions)
- MongoDB / MongoDB Atlas
- Database schema design
- Query optimization
- Git & GitHub
- Docker (basic)
- Postman / API testing
- Cloudflare (image/CDN)
- Basic deployment (VPS / shared hosting)

LANGUAGES

- English
- Bangla
